Transmitted herewith is a Certificate of Correction for U.S. Patent No. 7,071,794 ("Patent") issued July 4, 2006. Upon reviewing the Patent, the patentee noted an error of a minor nature in claim 20 which should be corrected as follows:

IN CLAIM 20, COLUMN 25

Line 47, "feedback circuit" should be changed to  
--feedback resistor--.

To correct the foregoing error, the patentee submits herewith a proposed Certificate of Correction effecting the foregoing correction to claim 20 (Column 25, line 47). The foregoing correction is necessary to ensure that claim 20 correctly describes the invention corresponding, for example, to the embodiment of the electronic apparatus described in column 18, lines 35-50 which requires an amplification circuit comprising a CMOS inverter and a "feedback resistor". The correct wording similarly appears in claim 12, lines 2-3, which recite an amplification circuit comprising a CMOS inverter and a feedback resistor."

Patentee respectfully submits that the error sought to be corrected is an inadvertent error, the correction of which does not involve new matter or require reexamination but which is needed to render the disclosure consistent throughout.

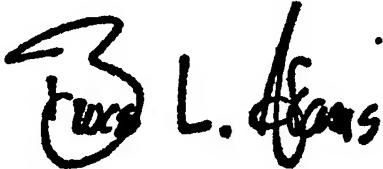

Enclosed herewith is a check in the amount of \$100.00 to cover the required fee under 37 C.F.R. §1.20(a). Authorization is hereby given to charge any deficiency or additional fee which may be required to our Deposit Account No. 01-0268.

Favorable consideration and granting of this request  
together with issuance of a Certificate of Correction are  
respectfully requested.

Respectfully submitted,
